

AEGIS ANNOUNCES FORMATION OF INTERDISCIPLINARY ADVISORY BOARD

AEGIS - P O Box 33724, Decatur GA 30033

We are proud to announce the formation of an interdisciplinary advisory board consisting of 28 women and men who are prominent in their respective fields, and who are dedicated to the study and welfare of transgendered persons.

The advisory board will give advice and suggestions about important and controversial issues and will serve a steering function for AEGIS. The entire board will be polled several times a year, and individual board members will be contacted as needed for input about their specialty areas. The board will provide advice and feedback about various AEGIS products and services and will suggest projects and areas of concentration.

The board's credentials are impressive. There are nine physicians, seven Ph.D.s (one is in progress), two R.N.s, one Jd.S., and at least two M.A.s. Board members are prominent in a variety of organizations, including the American Society of Plastic and Reconstructive Surgeons, the American Psychiatric Association, the Harry Benjamin International Gender Dysphoria Association, the Society for the Scientific Study of Sex, the American Association for Sex Educators, Counselors, and Therapists (AASECT), the Renaissance Educational Association, the International Foundation for Gender Education (IFGE), the Ingersoll Center, and the Society for the Second Self (Tri-Ess). More than half the board members have written books, and many have published papers about gender dysphoria in peer-reviewed scientific journals. We are fortunate to have been able to assemble such a fine and distinguished group of advisors.
